SIR,

With reference to your letter No. 3332/Ed 119 dated 5th September 1896, I have the honour to inform you that it is necessary that the Local Examination office should be in the close neighbourhood of the Government Press, as all question papers are printed under the personal supervision of the Manager of the Local Examinations. The Superintendent of the Government Press and his Assistants will not take the responsibility of printing examination papers confidentially. The Manager is obliged therefore to do their work, and personally see every paper printed under his immediate

supervision

supervision. In the months of May, October and November the Manager is engaged in the work of printing question papers, and then he has to go up and down several times a day between his office and the Press. On account of this difficulty it does not seem to me possible to remove the Local Examination office to so great a distance as the Fort. I have no other objection to make the proposed change

The room in question immediately adjoins the ~~floor~~ present Stamp Manufactory and is most conveniently situated for the purposes of that Manufactory

The Examiner, P.W. Associate, has once before asked to vacate the room, but this has not been done as it has not been possible to find another room for the things of the Examiner's Office to be removed to. I may add that the things in question consist of printed forms & such lumber &c: can be stowed away anywhere

Sir,

The room next to those occupied by the Stamp manufactory in the ground floor is required for storing water marked papers for stamps and the special water marked paper for Court purposes. The room is now filled with the old records of the Examiner's office. I have, therefore, the honor to request that early arrangements may be made to place the said room at the disposal of the Stamp department.

There is no necessity for the manager going up and down to the Press several times a day. For the 2 or 3 days it may take to print the question he can take his seat in the Press from 11 to 5.

I think so. 16/7/96

Sir,

In reply to the enclosed correspondence dealing with your letter No 2430 dated 23 August 94, I have the honor to state that the Sanitary Staff do not require the use of a room close to the Sanitary Inspectors office on the ground floor of the Public Offices - A large quantity of valuable & confidential books, papers & documents are kept in this room, & it would be very inconvenient for the Staff to have to go to the Yard for any book or paper required - I would therefore recommend that the room be not taken away from the Surveyor's Department - The correspondence referred to above is returned herewith & I am Sir Your obedient Servant
